

# Thursday English

Can I write introduction explaining who, what, where, when?

Warm up- look at the opening paragraph of the newspaper article from yesterday.

On 16<sup>th</sup> July 1969, Apollo 11 set off from Florida USA on a mission to get to the moon. On board were Neil Armstrong aged 26 , Buzz Aldrin aged 22 and Michael Collins aged 28 they had all undergone extensive training in preparation for their once in a lifetime experience.

Can you find the answers to who, what, where, when?  
Highlight them in the text,

Today I would like you to write your own opening paragraph. Use the one we have just looked at to help you.

- Remember, your opening paragraph must tell us:
- Who the article is about
- When the article is written about
- Where the incident/ event took place
- What happened
- Keep this paragraph safe, you will need it at a later date.
