

Year 4
4-a-day Maths
Wednesday
13.5.20

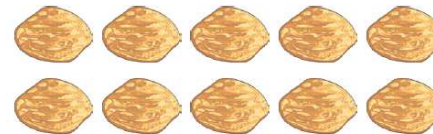

1. $9 \times 9 =$

2. Find the difference between 6988 and 1322

3. 99 divided by 9 =

4.

Laura makes 10 pancakes.

Laura eats 3 pancakes, her brother eats 2 pancakes and their mum eats the rest.

What fraction of the pancakes did Laura and her brother eat?

Complete the addition calculation to show your answer.

$$\frac{\quad}{10} + \frac{\quad}{10} = \frac{\quad}{10}$$
