

Create An Ocean Collage

What is a collage?

A collage is a piece of art made by sticking various different materials such as photographs, pieces of paper or fabric onto a backing.

1. Collect together scraps of coloured paper or fabric (magazines, newspapers, scrap drawing paper, packaging)

Where could you find different tones of the same colour?

2. Arrange them together on a piece of paper or card to create a collage scene of an ocean. This may be from your imagination, a book or you could find inspiration from the internet by Googling 'ocean images'.

Look at these collages by the American artist, Eileen Downes. She creates art from recycled paper. She "paints" with bits of torn paper.
