

# Remote Learning

Dear Parent /Carer

I would like to take this opportunity to update you on our remote learning if the need arises in the future. There are many different scenarios where this may happen, however in short it is about ensuring we are ready for lockdown and children working from home.

We are introducing MS Teams to add to our provision for children working from home. For those who are unaware of what this is, it is a safer version of Zoom that is approved by St Helens Council for use.

Children will be able to receive messages, updates on their learning, access document and power points, watch pre-recorded lessons and attend live sessions for the whole class or groups.

We will teach the children how to use MS Teams; however, to set this up it will need your help.

**Only parents can set up the account using the accompanying instructions. Required is your personal back up email and or mobile number.** Please note that these MS Teams sites are closed to just your child's class, the teacher and me. You can set up MS Teams on a mobile device, laptop, tablet and PC.

Further details will follow soon including details on how it will work, safeguarding, expected behaviour and some questions with answers. I have put a remote learning policy on the website that will give you more details.

Below, you will find your child's St Helen's secure email address and the password which is the date of birth. You can change this password once you have set up. Please note these are case sensitive.

Children will need this completing as early as possible so they can start their training in class.

Regards,

Mr. Robinson

You can set up MS Teams on a mobile device, laptop, tablet and PC.

Further details will follow soon including details on how it will work, safeguarding, expected behaviour and some questions with answers. I have put a remote learning policy on the website that will give you more details.

Below, you will find your child's St Helen's secure email address and the password which is the date of birth. You can change this password once you have set up. Please note these are case sensitive.

Children will need this completing as early as possible so they can start their training in class.

Regards,

Mr. Robinson

# Remote Learning

Dear Parent /Carer

I would like to take this opportunity to update you on our remote learning if the need arises in the future. There are many different scenarios where this may happen, however in short it is about ensuring we are ready for lockdown and children working from home.

We are introducing MS Teams to add to our provision for children working from home. For those who are unaware of what this is, it is a safer version of Zoom that is approved by St Helens Council for use.

Children will be able to receive messages, updates on their learning, access document and power points, watch pre-recorded lessons and attend live sessions for the whole class or groups.

We will teach the children how to use MS Teams; however, to set this up it will need your help.

**Only parents can set up the account using the accompanying instructions. Required is your personal back up email and or mobile number.** Please note that these MS Teams sites are closed to just your child's class, the teacher and me. You can set up MS Teams on a mobile device, laptop, tablet and PC.

Further details will follow soon including details on how it will work, safeguarding, expected behaviour and some questions with answers. I have put a remote learning policy on the website that will give you more details.

Below, you will find your child's St Helen's secure email address and the password which is the date of birth. You can change this password once you have set up. Please note these are case sensitive.
